WASHINGTON, DC 20510

May 13, 2025

The Honorable Jerry Moran  
Subcommittee on Commerce, Justice,  
Science, and Related Agencies  
U.S. Senate Committee on Appropriations  
Dirksen Senate Office Building  
Washington, D.C. 20510

The Honorable Chris Van Hollen  
Subcommittee on Commerce, Justice,  
Science, and Related Agencies  
U.S. Senate Committee on Appropriations  
Dirksen Senate Office Building  
Washington, D.C. 20510

Dear Chair and Ranking Member,

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2026 **Senate Appropriations Subcommittee on Commerce, Justice, Science, and Related Agencies Bill**, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

A handwritten signature in black ink, reading "Adam B. Schiff". The signature is fluid and cursive, with the first name "Adam" and last name "Schiff" clearly legible, and a middle initial "B." in between.

Adam Schiff  
United States Senator

**Schiff, Adam(D-CA) Commerce, Justice and Science  
Congressionally Directed Spending Requests**

| <b>Recipient Name</b>                                    | <b>Project Purpose</b>                                                                                                                                                                                                                                                                                    | <b>Project Location</b>         | <b>Amount Requested (\$000)</b> |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|---------------------------------|
| Cal Poly Partners                                        | Funding will be used by the Paso Robles Spaceport Training and Research Center to invest in equipment to establish a state-of-the-art laboratory complex tied to the commercial space industry and feature educational programs, research facilities, and collaborative partnerships.                     | Alameda CA                      | \$1,000                         |
| City of Brea                                             | Funding will be used to allow the city to invest in a mobile command post to be used throughout North Orange County, increasing public safety and operational efficiency during critical incidents.                                                                                                       | Brea CA                         | \$1,500                         |
| The Boys & Girls Club of Burbank and Greater East Valley | This funding will support STEM programming at multiple Boys & Girls Clubs to address pressing community challenges such as academic achievement gaps, workforce preparedness, and preparing the next generation for positions in critical STEM fields such as utilities, engineering, and skilled trades. | Burbank CA                      | \$100                           |
| City of Alameda                                          | Funding will be used to establish a Crime Victims Initiative within the City Attorney's Office to introduce the first victim advocates in the City of Alameda, offering critical assistance and support to victims and their families in navigating the justice system.                                   | City of Alameda CA              | \$900                           |
| City of Antioch                                          | Funding will be used to connect various public safety systems, ensuring comprehensive citywide coverage and improved public safety through enhanced crime monitoring and response capabilities.                                                                                                           | City of Antioch CA              | \$2,172                         |
| California Trout                                         | Funding will be used to enhance on-farm efficiency and improve irrigation systems and increase flows for juvenile and adult salmon. The project will also restore degraded fish habitat and improve fish passage within a section of the river.                                                           | City of Etna, Siskyou County CA | \$1,000                         |
| City of Gardena                                          | This funding will be used to meet the mental health, physical health, and academic needs of youth (ages 11 - 17) both prior to and upon their initial contact with law enforcement.                                                                                                                       | City of Gardena CA              | \$550                           |
| City of Pasadena                                         | Funding will be used to boost community driven crime prevention programs through the integration of new technology.                                                                                                                                                                                       | City of Pasadena CA             | \$1,400                         |
| City of Riverside                                        | Funding will be used to improve the speed and effectiveness of criminal investigations by implementing Rapid DNA technology that will improve processing times, reduce backlogs, aid victims, and exonerate the innocent.                                                                                 | City of Riverside CA            | \$715                           |
| City of Westminster                                      | Funding will be used to increase public safety by improving the department's ability to effectively and efficiently respond to, investigate, and prevent crimes.                                                                                                                                          | City of Westminster CA          | \$1,000                         |
| Southern California Coastal Water Research Project       | Funding will be used to adapt existing table-top ultrasonic microplastic detection technology – which is currently capable of detecting microplastics in containerized water samples – into a sensor that can be installed at municipal water providers to monitor microplastics in drinking water.       | Costa Mesa CA                   | \$2,000                         |
| County of Alameda Sheriff's Office                       | Funding will be used to implement a Rapid DNA Program, upgrade vehicle exam bay, and procure a new crime scene truck and full-body X-ray system, which will enhance local law enforcement's ability to conduct criminal investigations.                                                                   | County of Alameda CA            | \$2,937                         |
| Able Works                                               | Funding will be used to prevent youth violence, crime, and juvenile delinquency while increasing protective factors for youth, such as self-regulation, conflict management, planning for the future, coping skills, and navigating social challenges.                                                    | El Centro CA                    | \$1,000                         |
| San Joaquin County Sheriff's Office                      | Funding will be used to ensure safety and security on school campuses throughout Los Angeles by reducing response time to emergency events.                                                                                                                                                               | French Camp CA                  | \$5,727                         |

|                                                     |                                                                                                                                                                                                                                                                                                           |                                    |         |
|-----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|---------|
| Yurok Tribe                                         | Funding will be used to hire a Judge, Attorney, Case Manager and Project Driver for the Yurok Healing to Wellness Court to serve an additional 60 participants a year as they receive treatment, thus promoting healthy life choices and reducing.                                                        | Humboldt and Del Norte Counties CA | \$404   |
| City of Kingsburg                                   | Funding will be used to build out its police department's body worn cameras and dashcam equipment.                                                                                                                                                                                                        | Kingsburg CA                       | \$600   |
| Cedars-Sinai Medical Center                         | Funding will be used to purchase a three-photon microscope to advance high -impact research at the Board of Governors Regenerative Medicine Institute.                                                                                                                                                    | Los Angeles CA                     | \$1,500 |
| City of Los Angeles                                 | Funding will be used to enhance security measures in preparation for the 2028 Olympic and Paralympic Games.                                                                                                                                                                                               | Los Angeles CA                     | \$1,400 |
| County of Nevada District Attorney's Office         | Funding will be used to purchase equipment and training necessary to provide forensic and medical exams that enhance victim safety and support and increase prosecution rates for offenders of domestic violence, sexual assault, and human trafficking in rural Nevada County.                           | Nevada County CA                   | \$85    |
| University of California System                     | Funding will be used to acquire critical mobile command vehicles for the University of California Police and Emergency Management teams, which will have long-term benefits in the state. These assets will play a vital role in ensuring safety and preparedness for the upcoming 2028 Olympics.         | Oakland CA                         | \$4,000 |
| Chabot Space & Science Center                       | Funding will be used to foster STEM education and workforce opportunities for Oakland's K-8 youth in aerospace and related STEM fields through From Oakland to Space: Learning Everywhere, a multifaceted outreach initiative.                                                                            | Oakland CA                         | \$1,000 |
| City of Orange                                      | Funding will be used to centralize and analyze crime-related information to boost efficiency, accelerate investigations, and strengthen public safety across the community.                                                                                                                               | Orange, Orange County CA           | \$1,925 |
| City of Pleasanton                                  | Funding will be used to expand the City's Alternative Response Unit to provide 24/7 coverage for mental health response to the community, improving incident response and public safety.                                                                                                                  | Pleasanton, CA CA                  | \$1,600 |
| Keyz 2 The Future                                   | Funding will be used to provide community-based trauma recovery and violence prevention through mentorship, workshops, and other resources for trauma-impacted youth.                                                                                                                                     | Richmond CA                        | \$550   |
| County of Sacramento                                | Funding will be used by the Sacramento Internet Crimes Against Children task force to support the work on child exploitation cases in 30 counties in California. The task force needs a technology update and upgrade to keep up with changes in secure storage of CSAM and artificial intelligence.      | Sacramento CA                      | \$800   |
| California State University, San Bernardino (CSUSB) | Funding will be used by CSUSB, in collaboration with industry partners and government agencies, for technology acquisition, facility upgrades, and the creation of an AI retraining platform as part of the establishment of an Artificial Intelligence and Virtual Reality Research and Training Center. | San Bernardino CA                  | \$1,250 |
| City of San Diego                                   | Funding will be used to allow Law Enforcement and other City services like the fire department to monitor for illegal, terrorist, or even unsafe drone activity in localized and selected areas when needed for enhanced protection.                                                                      | San Diego CA                       | \$275   |
| San Francisco Police Department                     | Funding will be used to purchase DNA equipment that will greatly reduce the amount of time it takes to produce DNA results, accelerating investigations, enhancing case outcomes, opening up San Francisco Police Department's operational flexibility, and preventing crime.                             | San Francisco CA                   | \$550   |
| UC Santa Barbara                                    | Funding will be used for the BEACH Research Commons, a state-of-the-art research facility designed to revolutionize our understanding and management of marine ecosystems, specifically aquaculture resilience, marine biopolymers, coastal pollution and toxic bloom mitigation.                         | Santa Barbara CA                   | \$2,000 |

|                                               |                                                                                                                                                                                                                                                                                       |                       |         |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|---------|
| San José State University Research Foundation | Funding will be used to stand up a Micro Maker Space designed to empower innovation, train talent, and boost the semiconductor workforce.                                                                                                                                             | Santa Clara County CA | \$3,000 |
| City of Santa Maria                           | Funding will be used to develop a Real Time Information Center using innovative, technology-driven strategies that will enhance service and community protection.                                                                                                                     | Santa Maria CA        | \$1,350 |
| Santa Ynez Band of Chumash Indians            | Funding will be used to support coordination of the education and co-management goals of the Chumash Heritage National Marine Sanctuary.                                                                                                                                              | Santa Ynez CA         | \$1,400 |
| City of Alameda                               | Funding will be used for the Public Defender's Initiative for Economic Stability and Justice, which will, through partnerships with Partners for Justice (PFJ) and the UC Davis School of Law, enhance and expand pretrial services for indigent adults without legal representation. | Solano County CA      | \$358   |
| City of Ventura                               | Funding will be used to replace the City of Ventura's outdated Mobile Command Post (MCP), a critical asset shared by the Ventura Fire and Police Departments for field-level incident management.                                                                                     | Ventura CA            | \$1,500 |
| City of Walnut Creek                          | Funding will be used to upgrade Body Worn Cameras and related equipment.                                                                                                                                                                                                              | Walnut Creek CA       | \$1,000 |
